DETAILED ACTION

Response to Amendments

1. In view of the amendments filed 2/18/2004, the objections to the claims and the rejections to the claims under 35 U.S.C. § 112 are hereby withdrawn.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-81 drawn to a method of forming blister packs, classified in class 53, subclass 427.
 - II. Claim 82 is drawn to a blister pack, classified in class 206.
3. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)).

In the instant case, the blister pack of Invention II may be made by a different process, namely, one in which the cover and/or base sheet is formed from inorganic materials.

Art Unit: 3721

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 3721
